AMENDMENT

Hon. Commissioner of Patents
Washington, D.C. 20231

Sir:

In response to the Office Action dated December 30, 2002, please amend the above-identified application as follows:

IN THE CLAIMS:

Please add the following new claims:

76. (New) An apparatus according to claim 1, wherein the measurement station comprises a position controller constructed and arranged to control a position of the second object table in at least the first direction, and

the position of the physical reference surface in the first direction is adjusted to a preferred value prior to height mapping, and said preferred value is set as a zero measurement in the first direction of the at least one sensor and as a zero measurement in the first direction of the position measuring system.

77. (New) An apparatus according to claim 76, wherein the preferred value is at or adjacent to a centre point of a range of measurements in the first direction for which the at least one sensor provides a substantially linear output.
